23 of the best Battery Testing in Canberra ACT! Read the 12+ reviews, find payment options, send enquiries and so much more on Localsearch.

In Canberra, anti-islanding testing for Solar PV systems is mandatory every 5 years to ensure ongoing safety and compliance with local regulations. Failure to comply with these requirements may result in restrictions on system operation. Even if you aren't in the ACT however, we do recommend regular testing and maintenance of your system.

This graph shows what the Canberra Battery Test Centre paid per kilowatt-hour for 23 tested batteries, but doesn't give their names: If you were determined, you could go through Test Centre reports and make good guesses on which home batteries cost what.
