Using a 20" section of our popular LED Flex Strips, powered by an 8AA battery pack, we created our first battery powered LED strip kit. The full strip holds 15 LEDs (Standard Density) or 30 LEDs (High Density) that give off about 225 to 450 Lumens! Perfect for small areas where you need a bit of extra light or areas where you can't get power ...

Battery-powered LED strip lights are versatile options that are widely used for under-cabinet lighting, home decor, accent lighting, outdoor areas, or even in vehicles. Since these portable lights don't need a direct power source, they are considered the ideal option for creative setups.
