We offer different tubular skylight sizes (160 DS and 290 DS, 10"- and 14"- wide tubes, respectively, with

lengths up to 30") to fit different applications and spaces. Solatube has leak-proof flashing options to mount its sunlight collectors (standard and low-profile) on any roof type, from shingle to tile, and everything in between.

A Solatube sun tunnel is one of the most cost effective and simple ways to bring daylight into your home. But there is a very big difference in the performance of different makes of sun tunnels, or tubular skylights, which means that simply comparing the price of the same size systems between manufacturers does not give you an accurate picture.

Yes, we need batteries for the solar-powered hot tubs. In such a case, I suggest going with the 250Ah 24-volt batteries. Battery power allows us to use the energy we produce over a day when we need it instead of waiting until ...
