

What types of storage cabinets are available for lithium-ion batteries?

Various cabinet sizes and equipment variants are available for the safe storage of lithium-ion batteries. There are safety cabinets that are used exclusively for the passive storage of batteries, as well as those that allow both the storage and charging of lithium-ion batteries.

Are there safety cabinets for lithium ion batteries?

There are safety cabinets that are used exclusively for the passive storage of batteries, as well as those that allow both the storage and charging of lithium-ion batteries. ION-LINE passive storage safety cabinets offer a standard 90-minute fire resistance rating both from the outside to the inside and vice versa.

Why do you need a lithium ion battery cabinet?

These cabinets effectively prevent a fire from spreading from the outside to the batteries stored inside. At the same time, the risk of a fire inside the cabinet caused by the lithium-ion batteries or accumulators is also minimised because spread to the surrounding area is prevented.

What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.

Are battery storage cabinets safe?

Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them.

Are Asecos Ion-line lithium cabinets safe?

Discover the Asecos ION-LINE lithium cabinets for the safe storage and charging of lithium-ion batteries in a fire-protected environment. The ION-LINE cabinet models are specifically designed to meet the highest safety standards. They offer certified fire protection with a 90-minute fire resistance rating from the inside out and outside in.
