Solar Power in Cape Town is not expensive. 1kWp of Solar Power,without using Batteries,can be installed and registered for as little as R29,000.00incl. VAT with Treetops. Project Success Story!

How to install solar panels in Cape Town?

The installation of Solar Panels in Cape Town is depending on the type of roof you have. Roof tiles are generally the most expensive structures to mount Solar Panels to, while metal roofs have proven to be the fastest and cheapest. The number of Solar Panels is directly correlating to your Electricity Usage.

Does treetops offer solar system financing in Cape Town?

Treetops offers Solar System Finance(also PV Renting) in Cape Town. For now our offering is limited to commercial,industrial and agricultural clients. However,we are actively pursuing possibilities to offer an affordable financing option for Homes and Houses,to enable everyone to benefit from Solar Power in Cape Town.

What is a container energy storage system?

A Container Energy Storage System (ESS) is a modular,scalable solution for storing electrical energy. It typically consists of batteries housed in a shipping container,which makes it easy to transport and deploy. These systems can be used for various applications such as grid support,renewable energy integration,and backup power.
