

Are Chinese solar panels undermining European solar production?

European solar manufacturers say a glut of cheaper Chinese photovoltaics is undermining their production, with solar panels costing roughly half what they did at the same time last year due to the oversupply. Major European solar manufacturers such as Meyer Burger have shut plants or cut their output.

Are European solar panels going out of business?

Major European solar manufacturers such as Meyer Burger have shut plants or cut their output. China supplies about 95 per cent of the panels used in the EU, according to the think-tank Bruegel.

Will European Commission investigate Chinese bidders for a solar park in Romania?

BRUSSELS, May 13 (Reuters) - The European Commission will close its investigation into Chinese bidders in a public tender for a solar park in Romania after the companies withdrew from the process, European Industry Commission Thierry Breton said on Monday.

Are EU anti-subsidy powers deterring Chinese companies?

Two Chinese bidders have pulled out of a tender to supply a solar park in Romania, the latest sign that the EU's new anti-subsidy powers are having a deterrent effect on companies that Brussels claims receive financial support from Beijing.

Who are the two solar consortiums that dropped out of Romania?

The two solar consortiums that dropped out of Romania are a German subsidiary of Longi Green Energy Technology, one of the world's largest makers of photovoltaic cells and solar panels, and two European subsidiaries of the Chinese state-backed power company Shanghai Electric.

Why did China withdraw from the EU?

But the China Chamber of Commerce to the EU slammed the rules "as a tool of economic coercion" which left the Chinese companies with "no commercially prudent options but to withdraw". The CCCEU claimed the Chinese companies faced more scrutiny than other non-EU firms, and said the withdrawal "hampers" the EU's "green transformation efforts".

The European Commission will end an investigation into Chinese solar companies after the firms withdrew from bidding for a solar power project in Romania, Thierry ...
