

Czech Energy Storage Power Station Tender Announcement

What is the support for nuclear power in Czechia?

Support for the development of nuclear power Czechia is above 70%, which is uniquely high in Europe. This is based on a long-term survey conducted by IBRS. Alongside the tender procedure, the wholly owned subsidiary Elektrárna Dukovany II, a. s., (EDU II) is working on other parts of the project.

Will Prague apply for EC approvals for nuclear power plants?

The approval of the state aid mechanism for the first of the four planned nuclear power plant units has placed Prague in a favourable position as regards its efforts to apply for similar EC approvals for the other three units.

Will CEZ build a nuclear power plant in the Czech Republic?

Alongside this, CEZ confirmed that two companies, EDF from France and KHNP from South Korea, had submitted their modified binding bids to construct four units at both Czech nuclear power plants (see 'The Czech nuclear tender: more units to be built, but without US participation').

When will CEZ and KHNP start deliveries to the nuclear power plant?

Both companies should start deliveries to the Temelin Nuclear Power Plant in 2024. Currently, CEZ has fuel assemblies for approximately two years of operation. The volume of the stock at the Dukovany Nuclear Power Plant is even higher. 'We decided to increase the stockpile volume at both nuclear power plants in 2016.

Will the Czech Republic increase its electricity production by 2050?

The Czech Republic plans to increase its electricity production at nuclear power plants from the present level of around 33% to 50% by 2050.

Will the new Dukovany nuclear power plant replace the existing power plant?

The new Dukovany unit will be built next to the existing power plant and will replace part of its capacity in the future. The first unit of the Dukovany nuclear power plant was commissioned in 1985. Support for the development of nuclear power Czechia is above 70%, which is uniquely high in Europe.

Following the Government's opinion, the Ministry of Industry and Trade (MIT) has given its consent to the investor of the new Dukovany Nuclear Power Station unit to issue the tender and invite three bidders, i.e. Electricit de France S.A., Korea Hydro and Nuclear Power Company and Westinghouse Electric Company LLC, who passed a safety ...
