

How much does a car battery replacement cost?

In addition, if you have a mechanic install the battery for you instead of doing the work yourself, you'll pay around \$30 in labor. The table below shows a quick price comparison of car battery replacement cost estimates from reputable suppliers:

How much does a Tesla battery replacement cost?

JD Power quotes the following battery replacement estimates for Tesla models, including labor: For the Model Y, Jerry indicates a 2022 Model Y's battery pack will cost between \$10,500 and \$12,500. The same Recurrent report found reports of two Tesla Model S owners being quoted \$22,000 for replacing their batteries.

How much does it cost to replace a Hyundai battery?

Both owners took their vehicles to their local authorized Hyundai dealer to get an estimate to have the battery replaced using their insurance policy. The prices ended up being about \$60,000 Canadian, roughly equal to the price of the vehicle when new.

How much does a EV battery replacement cost?

According to a study published by Recurrent in 2023, EV battery replacements range between roughly \$5,000 and \$20,000 for all brands. Fortunately, the same report indicated that of around 15,000 EV drivers, the battery failure rate is just 1.5%. Still, that slight chance of a battery replacement out of warranty can be a serious financial setback.

How much does a lithium ion battery cost?

This is significantly higher than the \$139/kWh average quoted by Bloomberg in November 2023, following a period of lithium-ion battery price drops. Newer lithium iron phosphate (LFP) battery packs have a global weighted average of \$130/kWh and are seen as crucial to lowering battery costs in the near future.

How much does a 2020 Tesla Model 3 battery cost?

The Recurrent report found the following receipt for the replacement of a 2020 Model 3's battery: As you can see, these figures far exceed the module-only replacement costs mentioned by Musk, with labor also substantial - this isn't a hybrid where a DIY battery replacement is possible. At the above costs, this Model 3's battery is around \$180/kWh.
