

# Export new energy storage charging pile brand

What are the challenges in exporting charging pile products?

Zhang pointed out challenges in exporting charging pile products, such as policy restrictions similar to those for electric vehicles. Additionally, the need for localized services poses challenges, given the dispersed customer base.

Are homegrown charging piles for new energy vehicles a big deal?

[XIE SHANGGUO/FOR CHINA DAILY] Global interest in homegrown charging piles for new energy vehicles has ballooned as China cements its leading position in the global NEV market with exports set to almost double this year, experts and industry executives said.

Is there a market space for charging piles?

At present, there is a huge market space for charging piles in Europe and the United States. On the basis of the small and effective "going overseas" of Chinese car companies, both traditional Chinese car companies and new car manufacturers are increasing their offensive in the European and American markets.

Why is the charging pile market exploding?

Major countries and regions in Europe and the United States have successively released financial subsidies and investment plans for the construction of charging facilities. With the rapid increase in sales of energy vehicles, the overseas charging pile market is about to explode.

Are Chinese charging pile companies a good investment?

Factory workers at a charging pile manufacturer in Luoyang, Henan province, inspect EV charging piles. [Photo/China Daily] Chinese charging pile companies have advantages in the supply chain, technology innovation and cost, leading to high demand in overseas markets, industry experts said.

How much does a charging pile cost in China?

Overseas charging piles of the same power are priced several times higher than those in China. For instance, a 120 kilowatts DC charging pile overseas costs around 464,000 yuan (\$64,000), significantly more than the 30,000 to 50,000 yuan price range in China, according to a report of Industrial Securities.

Hongjiali New Energy EV Charging Station Company is a electric vehicle charger manufacturer, focusing on one-stop R& D, design, production, sales and service of electric vehicle chargers. Committed to providing overall solutions for ev ...

specializing in energy storage, photovoltaic, charging piles, intelligent micro-grid power stations, and related product research and development, production, sales and service.
