Can a battery bag hold a 100 Ah battery?

Not only does it stop the battery from catching fire, but it's also an excellent storage bag, large enough to hold more batteries and models. By the way, our battery bag can hold a 100Ah lithium battery. I am sure you will love it.....

Can a lithium battery cause a fire?

Electric vehicles, E-bikes, electric toys, backup power supplies and other products are inseparable from lithium batteries. But once the battery is short-circuited, the battery will instantly generate extremely high temperatures and even cause a fire. You need to add a layer of protection to your battery.

Eh. That's a decent yardstick. With lithium batteries you generally get 3000-5000 charge/discharge cycles before the total pack capacity starts to approach 80-90% of original, so by that time you probably want a new battery anyway. Reply PathologicalLiar_ o Additional comment actions. Fire Marshall here. Fire extinguisher does very little to control battery fire. ...
