

How do I install a suction cup Mount?

Press the mount onto the suction cup until it snaps into place. The mount is reversible. If you are using the included windshield suction cup, you should install the mount with the socket toward the top of the device. If you are using an optional dash mount accessory, you should install the mount with the socket toward the bottom of the device.

How do you charge a windshield suction cup?

Before you use your device on battery power, you should charge it. Plug the vehicle power cable into the USB port on the device. Press the mount onto the suction cup until it snaps into place. The mount is reversible. If you are using the included windshield suction cup, you should install the mount with the socket toward the top of the device.

What happens if a cup disengages from a battery case?

This may cause the cup to disengage from the battery case during extraction creating lost time and unsafe situations. Improperly mounted hardware can also cause damage to the extractor arm as the stud threads can deform the inside of the mounting holes.

How do I install the 2-in-1 charging & storage Mount?

The 2-in-1 charging & storage mount is an optional accessory. You can install it based on your needs. The 2-in-1 charging & storage mount should be installed in a cool, dry place with an electrical outlet nearby. Prior to installing, ensure that there are no electrical wires or pipes in the space directly behind where the mount will be installed.

o If the device is not used for extended period, the battery should be recharged every 3 months in order to increase the longevity of the device. 2. Install two suction cups to the front of the base. Press the tongue of the suction cup into the recesses on the baseplate (Fig 1). 3. Install the remaining two suction cups to the rear of the ...

Before you use your device on battery power, you should charge it. Plug the vehicle power cable into the USB port on the device. Press the mount onto the suction cup until it snaps into place. The mount is reversible. If you are using ...
