

What is the global smart electric meter market worth?

The global smart electric meter market reached a value of US\$25.6 Billion in 2023. As per the analysis by IMARC Group, the top 12 smart electric meter companies are increasingly focusing on the expansion of communication network infrastructure with an enhanced focus on reducing production costs and improving productivity.

Who makes a smart meter?

4. Holley Technology Ltd. Holley Technology Ltd. is a leading manufacturer and supplier of smart electric meters and related solutions globally. The company was founded in 1970 and has since become one of the world's largest meter manufacturers, specializing in smart energy management and metering technologies.

Why is smart meter market growing?

Besides this, the growing adoption of smart meters in a wide range of utility companies is also propelling the market growth. Additionally, the growing need for remote monitoring and controlling of power grids is providing an impetus to the market.

What are the top 10 smart meter companies?

1. Global Top 10 Smart Meter Companies 1.1. Aclara Technologies LLC 1.2. EDM I Limited 1.3. Enel S.p.A. 1.4. Honeywell International Inc. 1.5. Itron, Inc. 1.6. Kamstrup A/S 1.7. Landis+Gyr Group AG 1.8. Schneider Electric SE 1.9. Sensus (Xylem Inc.) 1.10. Wasion International 2.

What does Kailash metering do?

A subsidiary of the Kailash Group, the metering solution division of the company provides a comprehensive line of electricity meters, smart meters, and cables, and the engineering construction and contracts division implements turnkey power projects, including substation erection, rural electrification, and network refurbishment.

What is a smart meter?

Smart meters enable greater measurement, power quality, and data profiling capabilities compared to traditional meters. Instead of relying on traditional meters (mechanical meters), energy suppliers and utility companies are leveraging smart meters to simplify the entire process and save time and money.
