

Why did May O'Connell ask you to find replacement power cells?

May O'Connell has asked you to find replacement power cells in the ruins of Zhu's Hope, in order to restore power to the colony. Alternative journal entry: You found some power cells while exploring the tunnels beneath Zhu's Hope. It's likely that someone back in the colony will be able to use them.

How do I get the power cells?

May O'Donnell will ask you to obtain the power cells in order to power the generator and grant energy to the colony. You can find them down in the tunnels, in a heavily damaged vehicle. First head towards the elevator to the skyway, and take the stairs beyond it down.

What is the power cells assignment side quest?

This page of IGN's Mass Effect guide is about the Power Cells Assignment Side Quest, which tasks you with venturing into the tunnels below Zhu's Hope to recover some Power Cells to help with the colony. It provides information on how to complete this quest.

Where can I find power cells?

May will ask Commander Shepard to obtain the power cells necessary to power the generator. They are found on a heavily damaged vehicle, down in the tunnels. Head towards the elevator to the skyway, and continue down the stairs beyond it. Once in the tunnels fight through the geth, if this has not been done already.

Where can I find power cells after the Varren are defeated?

After the Varren are defeated, search the front of the vehicle to find the Power Cells. The Varren here are associated with the other Zhu's Hope Assignment, Feros: Varren Meat and once they're defeated, you're free to explore the area in peace.

What is a power cell assignment in ExoGENI?

The Power Cell Assignment in ExoGENI tasks you with venturing into the tunnels below Zhu's Hope to recover some Power Cells. This Assignment can be done at any time, but it has positive effects on the story if you complete it before exploring ExoGeni Headquarters.
