Hithium has launched a battery energy storage system (BESS) product suitable for use in desert conditions and plans to build a 5GWh production plant in Saudi Arabia. The Chinese manufacturer and system integrator

launched its desert BESS solution at an event in the Kingdom of Saudi Arabia this week, claiming that the product line is customised to meet ...

Myanmar Solar: Lots of Potential, But a Cloudy Outlook for Solar Energy Development and Growth. Myanmar is able to produce between 2.9 gigawatts (GW) and 3.1 GW of electricity, according to media sources. Recent estimates by the World Bank forecast energy consumption in Myanmar would grow at an average 11% rate out to 2030. The World Bank also ...

One of the highlights was the upgraded version of the SPF series--"Future-H Series", an off-grid energy storage solution for residential use. This innovative all-in-one design seamlessly integrates inverters ranging from 6 to 36kW and batteries with capacities of 5.5 to 33kWh into a single, compact cluster.

ENGIE has teamed up with a Myanmar-focused off-grid energy specialist to help spur rural electrification across the Southeast Asian country with mini-grids combining PV, diesel and battery storage. The French energy giant ...

In a landmark initiative, CDS SOLAR is spearheading the construction of the SHWE MYOH 90MW Solar Farm Project in Myanmar, reaffirming its commitment to revolutionizing the nation's energy landscape. This transformative project involves the installation of a state-of-the-art 90MW lithium iron phosphate (LiFePO4) battery storage system ...
