

DTEK Group, a private investor in Ukraine's energy sector, has announced a EUR140m investment plan to construct a series of battery energy storage systems (BESS) in the country with a combined capacity of 200MW. The new project aims to strengthen Ukraine's energy security and support the transition to a greener energy system.

A prioritization by suppliers in manufacturing and delivering orders is well-appreciated to swiftly restore Ukraine's energy infrastructure. Procurement procedures: Below you find frequent updates on Tender Notifications by GIZ for the purchase of various technical energy goods for Ukraine. Those goods are intended for the restoration of the ...

Budpower company, which is a part of KNESS Group, has received a license for conducting economic activity for energy storage. The decision was ratified today at a meeting of The National Commission for State Regulation of Energy and ...

DTEK announced its Ukrainian energy storage sites, which will be commissioned no later than September 2025, will provide grid ancillary services (namely ...

DTEK Group, a private investor in Ukraine's energy sector, has announced a EUR140m investment plan to construct a series of battery energy storage systems (BESS) in the ...

New utility-scale BESS would be built at existing run-of-river and pumped hydro energy storage (PHES) plants owned by Ukhydrenergo (UHE), to help provide fast and efficient frequency response ancillary services to Ukraine's grid, or ...

Last week (7 November) saw bids opened for a 75MW/300MWh BESS tender launched by the government of Honduras, in Central America. ... The public event marked the opening of bids for the energy storage procurement, called LPI-001-ENEE-UEPER-2024, for the "Supply, installation, testing and commissioning of a battery energy storage system (BESS) ...

SECI tenders pushing India's renewable and storage agenda. As mentioned, this is the latest in a line of recent large-scale tenders from SECI, including both standalone energy storage and hybrid facilities paired with renewables. The corporation's tenders have been credited with helping bring down the cost of storage.

The optimal installed capacity of energy storage system of 240 MW will provide the amount of reserves (200 MW) needed to balance the growing share of renewable energy sources (RES) for the integrated power system (IPS) of Ukraine. It will also contribute to the successful operation of the IPS of Ukraine in an isolated mode,

which is a key test ...

Bulgaria's Ministry of Energy announced two tenders to add 1,425 megawatts (MW) of renewable energy to the grid and 350 MW of battery energy storage system (BESS) projects.

May 2021 inauguration of Ukraine's first 1MW BESS. Image: DTEK. The World Bank is financing a tender to equip state-owned hydroelectric power plants in Ukraine with ...

May 2021 inauguration of Ukraine's first 1MW BESS. Image: DTEK. The World Bank is financing a tender to equip state-owned hydroelectric power plants in Ukraine with battery energy storage systems (BESS), amid reports of massive damage to the country's grid and generation fleet. New utility-scale BESS would be built at existing run-of-river and pumped ...

Indian utility NTPC launches 1.2 GW renewables-plus-storage tender Indian state-run power producer NTPC is procuring 1.2 GW of firm, dispatchable power from renewable energy projects collocated with energy storage systems. The projects can be located anywhere in India. Bidding closes on July 23.

ukraine gas company naftogaz ukrainy engages in a full cycle of field exploration and development, production and exploration drilling, storage of oil and gas, processing and distribution of oil products, natural gas and liquefied gas to consumers. Naftogaz stock is committed to future generations, which is why one of our strategic goals is to build up "green" ...

There is a draft law on energy storage, which has to be passed to enable energy storage projects to be established in Ukraine. The Ministry plans to announce tenders for the provision of technical assistance and advisory services to optimise future quotas with regards to the capacity of the power system and other parameters.

Bidding for Energy, Power and Electrical tenders in Ukraine is extremely lucrative for companies of all sizes. Ukraine tendering authorities release contracts for most of the Energy, Power and Electrical products and services procured by them. The most popular categories are - Ukraine generators tenders; Ukraine transformers tenders ...
