The award celebrates the innovation shown by Neoen in El Salvador to deliver the biggest battery project in

## New energy batteries settled in San Salvador

Central America. The project comprises two large battery systems providing a total of 11MW / 8 MWh at Neoen's Capella (140 MWp) and Providencia (101 MWp) solar farms. The ...

The government, recognizing the dual benefits of reducing dependency on fossil fuels and curbing environmental pollution, has introduced policies and incentives to encourage the adoption of electric vehicles, especially as they released the approval on May 20, 2021, for using electric cars.. In addition, such initiatives would include exemptions from taxes, import duty waivers, ...

Renewables grows, but more to be done. BNEF's report found that global investment into new renewable energy generation and storage projects rose 8% to US\$623 billion in 2023 compared with 2022.

La empresa generadora de energ&#237;a solar, Neoen, establecida en el pa&#237;s desde 2014, puso en operaci&#243;n comercial dos bater&#237;as con capacidad para almacenar un total de 11 MW/8MWh que funcionan dentro...

Battery 2030+ is the "European large-scale research initiative for future battery technologies" with an approach focusing on the most critical steps that can enable the acceleration of the findings of new materials and battery concepts, the introduction of smart functionalities directly into battery cells and all different parts always including ideas for stimulating long-term research on ...

A new Nuclear Energy Law was approved with 57 votes, establishing stringent guidelines for anyone seeking to engage in activities related to nuclear and radioactive installations, materials, and substances. The law mandates that any individual or entity must submit an application to the newly created Nuclear Energy Regulation Directorate, part of the ...

construction in San Salvador, through references to international regulations from Mexico, Colombia, Brazil, and Guatemala. Participation in technical roundtables with the DNE ( National Energy Directorate ) for the development of new energy policies, energy efficiency, and improving practices to integrate new renewable sources into the grid,

El premio aplaude la innovaci&#243;n que Neoen sobrellev&#243; para construir el proyecto de bater&#237;as m&#225;s grande de Am&#233;rica Central, en El Salvador. El proyecto destacado consiste en dos sistemas de bater&#237;as de gran escala que suman un total de 11 MW / 8 MWh dentro de sus centrales solares Capella (140 MWp) y Providencia (101 MWp).
