

As part of Seri Industrial group, FAAM is proud to contribute to the project with Eni for the development of the lithium-iron-phosphate (LFP) battery chain. Thanks to this agreement, the new Brindisi plant will be joined ...

Cellules, modules et batteries au lithium Made in Italy fabriqué avec des matériaux verts et durables et en production verticale. Nous partons du matériau actif (Lithium - Fer - Phosphate), en passant par la rationalisation de la cellule avec un processus water-based, pour arriver au système de batterie inclusif de notre BMS ...

FAAM - Energy Saving Battery | 9.178 follower su LinkedIn. On the path to Energetic Transition | FAAM, controlled by Seri Industrial Spa, is specialized in the production and recycling of lead-acid and lithium batteries for traction, industrial, storage and military applications. Thanks to the fully integrated supply chain, including a Battery Management System, FAAM brings to market ...

FAAM have been present in the battery market since 1974 with customised solutions and a complete Circular Economy model. We produce both lead-acid and lithium-ion batteries, with a strong focus on research and development.

Celle, Moduli e Batterie a litio Made in Italy realizzate con materiali green e sostenibili ed in produzione verticale. Partiamo dal materiale attivo (Litio - Ferro - Fosfato), ...

FAAMSERI group is SERI group's most important manufacturer of lead-acid batteries, start-up batteries, lithium batteries and environmental ...

Il recente accordo tra Eni e SERI Industrial rappresenta un'opportunità di grande rilievo per FAAM e per l'intero settore energetico. Con la possibile creazione di una filiera di produzione e riciclo per batterie LFP presso Brindisi, integrata con l'impianto di Teverola di FIB, controllata di SERI, FAAM rafforza il suo ruolo nella transizione energetica.

In 2006,FAAM headquarter invested 7 million Eur setting up Yixing FAAM Industrial Batteries Co.,Ltd in Yixing China which introduced the world's most equipment and Europe's technology,and provides all kinds of high quality,efficient and clean batteries for world market.

Acquista al miglior prezzo FHP12-33 FAAM, Batteria AGM VRLA Ermetica Ricaricabile al Piombo 12V

33Ah (20 hr.) M6. Contenitore di tipo ABS resistente agli urti e ritardante la fiamma secondo la UL94:V0 IEC 707. Vita di progetto >10-12 anni (a 20°C) FAAM: Home Batterie 12V AGM Batterie al Piombo
