

Does reliance have a lithium-ion battery?

On the lithium-ion battery front, essential for higher-performance automotive batteries, Reliance can draw upon expertise and experience with their US subsidiary Lithium Werks, which is well versed in LFP (lithium-iron-phosphate) batteries, and its UK subsidiary Faradion.

Is reliance new energy acquiring Lithium Werks?

Reliance New Energy, a subsidiary of Reliance Industries, has signed pacts to acquire the assets of cobalt-free lithium battery technology and manufacturing company Lithium Werks. The deal, valued at \$61 million, includes funding for future growth and is expected to complete by June 2022, RIL said in an exchange filing.

Is reliance advancing sodium-ion battery technology?

According to Manufacturing Today, Reliance is also advancing sodium-ion battery technology, which is ideal for stationary storage and two-wheeler batteries, among other advantages, on account of the abundance of sodium. Reliance plans to industrialise sodium-ion cell production at a megawatt level by 2025.

Will Reliance Industries enter battery manufacturing ecosystem by 2026?

Reliance Industries Ltd. will enter battery manufacturing ecosystem with LFP (lithium iron phosphate) battery solutions and aims to set up its battery giga factory by 2026.

When will Reliance Industries (RIL) start a battery factory?

Reliance Industries Ltd (RIL) on Monday (August 28) announced that it will enter battery manufacturing ecosystem with LFP (lithium iron phosphate) battery solutions and will set up its battery giga factory by 2026.

Where can I find information about Reliance Industries Limited?

Website: [lithiumwerks.com](http://lithiumwerks.com). About Reliance Industries Limited Reliance is India's largest private sector company, with a consolidated turnover of INR 539,238 crore (\$73.8 billion), cash profit of INR 79,828 crore (\$10.9 billion), and net profit of INR 53,739 crore (\$7.4 billion) for the year ended March 31, 2021.

Reliance New Energy Limited acquires assets of Lithium Werks. An ...

Reliance Industries Ltd. will enter battery manufacturing ecosystem with LFP (lithium iron phosphate) battery solutions and aims to set up its battery giga factory by 2026.
