

What are the top solar panel brands in 2024?

February 13, 2024 - Today, SolarReviews released its annual solar panel brand ranking list, and Qcells has been crowned the top solar panel brand for the second year in a row! Details around the ranking list can be found here, but here is a quick snapshot of the top 2024 solar panel brands:

Who makes the most efficient solar panels?

Aiko is a lesser-known manufacturer that recently launched some of the most efficient solar panels in the world, even outranking the renowned Maxisun Sunpower panels for much of 2023. The company's focus on innovation and performance led to the development of the unique All Back-Contact (ABC) cell design.

Who are the top 10 solar companies in the world?

The major players maintained their leading positions throughout the list. The top four were LONGi, Jinko, Trina and JA Solar, the same order as last year. Chint (Astonergy), Tongwei, Canadian Solar, Risen Solar, DAS Solar, GCL SI and First Solar were among the top five to ten.

How are solar company manufacturers ranked?

Solar company manufacturers are ranked based on criteria like financial stability, manufacturing capacity, and industry reputation. The tiering system, where tier 1 denotes the highest ranking, is widely utilized for classification.

Which SMART panel is best?

Right now, the Spanis is the best smart panel for this use case. Schneider Electric has told us that the Wiser modules that work with their Pulse panel will eventually be able to do this, but the feature isn't currently available.

What are the best solar panels in 2022?

Even without the US factory, Q Cells is one of the best solar panel brands of 2022 and a popular choice for American homeowners. Panasonic began making solar panels in 1975, making it the oldest solar manufacturer on the list. Its EverVolt® Series is a popular choice due to high efficiency, low degradation, and bankable 25-year warranties.
