In fact, studies have shown that dirty solar panels can reduce the efficiency of a solar panel system by up to 30%. This means that if you have dirty solar panels, you could be losing out on a significant amount of electricity, which can cost you money in the long run. Cleaning your solar panels can also help to extend their lifespan. Dirt ...

We use low-pressure, deionized water-fed rotary brushes designed specifically for the delicate touch solar panels require. Every cleaning includes an antistatic protective coating and visual inspection of your panels, mounts and wiring. During warmer months heated water is used so panels are not cooled too quickly.
