Our new solar-powered RV packages, Sol - Powered by the Sun, make it easier than ever to harness solar power for your next trip. With three solar-powered RV systems to choose from, you can have a solar package that supplements your typical energy use, or go for a higher tier that powers your RV when you camp off-grid.

Can You RV off-grid with solar power?

Embarking on the journey of RVing off-grid with solar power has been one of the most rewarding decisions we've made as full-time RVers. It has opened up a world of possibilities, allowing us to explore remote locations, save money on camping fees, and experience a greater sense of freedom and self-sufficiency.

Which batteries should I choose for my RV solar setup?

One of the most significant expenses in any RV solar setup is the batteries. After researching various options, we decided to go with Redodo 12V 200Ah lithium batteries, based on the recommendation of our solar consultant. We were impressed by the affordability and performance of these batteries compared to more well-known brands like Battle Born.

How many solar-powered RV systems are there?

With three solar-powered RV systems to choose from, you can have a solar package that supplements your typical energy use, or go for a higher tier that powers your RV when you camp off-grid. Cut your energy costs by keeping batteries charged with free solar power.
