We offer a range of hot water DN12 solar connectors, fittings to match stainless steel flexible pipework. These kits include complete coupling sets that offer leak free thermal heating connections. The flexible tube connection items are priced individually or in kits.

Crimping Tool & Solar Connector Assembly Tool. You should learn beforehand about the tools used to wire solar panels. These are the crimping tool and solar connector assembly tool. The crimping tool is used to crimp the connecting plate of the solar connector to the naked wire. In most cases, this means an MC4, the most popular one in the solar ...

Brass soldering tube one side, threaded male for pipe connection on the other side

Solar connectors are used to connect solar panels to other panels, batteries and junction boxes. The most common type of solar connector is the MC4 connector, a standardised single pole connector that has built in strain relief and interlocks. These interlocks ensure a secure mating and protection against accidental release between plugs and sockets. As they are often used ...
