

Do commercial pools need a solar pool heating system?

According to industry statistics, two-thirds of the commercial pools worldwide have either seasonal or year-round heating requirements. Solar pool heating systems can provide a clean, domestic and affordable way to reduce the monthly energy bill for heating commercial swimming pools. **THE MOST TESTED. THE MOST TRUSTED.**

Do backyard pools need solar?

Hundreds of thousands of backyard pool owners around the world depend on clean, reliable solar to maximize their investment. According to industry statistics, two-thirds of the commercial pools worldwide have either seasonal or year-round heating requirements.

Who is AET solar hot water & pool heating systems?

AET is a residential solar hot water and pool heating systems manufacturer that has provided solar water heating solutions for various industries since 1975 - from commercial solar water heating to pre-engineered residential systems.

How often should a solar pool heater be replaced?

Gas pool heaters need to be replaced every 5 to 7 years, while a solar pool heater, such as ECOSUN®; by Aquatherm, has a 15-year expected service life. Fossil-fuel heaters pollute the planet and deplete its natural resources. Solar is an emission-free and renewable source of energy.
