

Who makes Sun electrolytic capacitors?

SUN is a Japanese manufacturer of high-quality aluminum electrolytic and hybrid capacitors with more than 60 years of experience in development and production. In 2000, the company introduced the world's first polymer hybrid electrolytic capacitor to the market, which offers major advantages over conventional electrolytic capacitors.

What's new in aluminum electrolytic capacitor catalog?

Products Aluminum Electrolytic Capacitors catalog updated. New Catalog 16.5 (New), 21.5 (New), 21.5 (New) added to 25V and 35V. 13.5 added to 50V and 63V. To view the above contents, you need Adobe Acrobat Reader installed in your computer. If you do not have it, please download it from the icon below.

Where are suncon capacitors made?

Production for the European market takes place in Japan. SUNCON is a Japanese manufacturer of high quality aluminium electrolytic capacitors with more than 50 years experience.

Who invented the capacitor?

There are records that indicate a German scientist named Ewald Georg von Kleist invented the capacitor in November 1745. Several months later Pieter van Musschenbroek, a Dutch professor at the University of Leyden came up with a very similar device in the form of the Leyden jar, which is typically credited as the first capacitor.

Who makes Sang Jing capacitors?

Sang Jing Electronics is a Taiwanese capacitor company established in 1984. Their electrolytic capacitors have been distributed under the multicompPRO brand, the 'home brand' of distributor Premier Farnell Limited (other names Farnell /Newark /element14 /CPC). Some small Rubycon capacitors have a boxed R instead of the full Rubycon logo.

Where can I buy a Mylar capacitor in Hong Kong?

Suntan Hot Selling Mylar Capacitor. Unit H, 4/F., Dormind Industrial Building, 13 Yip Fung Street, Fanling, New Territories, Hong Kong. Suntan offer all kinds of capacitors. Including Tantalum Capacitors, Plastic Film Capacitors, Mylar Capacitors, Spark Capacitors, Ceramic Capacitors and Gold Capacitors etc.

EP-cap (conductive polymer-hybrid Aluminum Electrolytic Capacitors) that has achieved ultra low ESR/maximum permissible ripple current with the industry's first 80V/100V/125V In-vehicle electric applications

Nature-inspired sun logos evoke a sense of harmony, tranquility, and connection to the natural world. By

incorporating elements of nature into your logo, you can create a strong visual representation of your brand's values and mission. Sun with Leaves. One popular nature-inspired sun logo idea is to combine the sun with leaves or foliage ...

The layout of your sun logo should be carefully planned to create a visually appealing and balanced composition. Consider the placement and size of the sun icon in relation to any accompanying text or additional design elements. The goal is to achieve harmony and clarity while ensuring that the logo is easily recognizable and readable, whether it is displayed on a ...

With different forms of Aluminum Electrolytic Capacitors such as a surface-mounted types and radial-lead types, we meet a wide range of user needs by adding such characteristics as low impedance, long life, high reliability and low-profile structure to each specific type.

Otra forma de descargar un capacitor sería colocar una bombilla incandescente que pueda tolerar la tensión del capacitor. Conectarla y una vez que ya la bombilla no se encienda, el capacitor estará descargado. Nuevamente, usted siempre debe medir la tensión después de que el mismo se haya descargado de manera segura. Para una ...

Un condensateur est un composant électronique, constitué de deux armatures conductrices (appelées électrodes) en influence totale et séparées par un isolant polarisable (ou diélectrique). Sa propriété principale est de pouvoir stocker des charges électriques opposées sur ses armatures. La valeur absolue de ces charges est proportionnelle à la valeur ...

Suntan is a Hong Kong based manufacturer of Plastic Film Capacitors, including Green Polyester Film Capacitor, Metallized Polyester Film Capacitor, Mini BOX metallized Film Capacitor, X2 Capacitor, Metallized Polyester Film Capacitor and Polystyrene Film Capacitor etc. Please refer to below product list of Plastic Film Capacitors.

Aluminum Electrolytic Capacitors with Hybrid Conductive Polymer . EP-cap COVER (126KB) EP-cap Soldering Condition / Reflow Soldering Condition / Ripple Current Frequency Coefficient (133KB) SERIES SPECIFICATIONS. EP-cap Aluminum Electrolytic Capacitors with Hybrid Conductive Polymer [Surface Mount Type] FVL (142KB) HVHZ/HVH (98KB) HVPZ/HVP ...

Capacitors don't always specifically say the name of the company on them and their logos can change throughout the years making identifying manufacturers a challenge. This page aims to catalog capacitor brand logos for easing identification.

Un condensador eléctrico (también conocido frecuentemente en Hispanoamérica con el anglicismo capacitor, pero adaptado a la fonética del español) es un dispositivo pasivo, utilizado en electricidad y electrónica. [1] [2] Está formado ...

Suntan offer all kinds of capacitors. Including Tantalum Capacitors, Plastic Film Capacitors, Mylar Capacitors, Spark Capacitors, Ceramic Capacitors and Gold Capacitors etc.

This open source icon is named "logo capacitor" and is licensed under the open source MIT license. It's available to be downloaded in SVG and PNG formats (available in 256, 512, 1024 and 2048 PNG sizes). It's part of the icon set "Ionicons", which has 1,300 icons in it. If you need this icon available in another format, it should be pretty straight forward to download it as an SVG ...

SUN is a Japanese manufacturer of high-quality aluminum electrolytic and hybrid capacitors with more than 60 years of experience in development and production. In 2000, the company introduced the world's first polymer hybrid electrolytic capacitor to the market, which offers major advantages over conventional electrolytic capacitors.

Aluminum Electrolytic Capacitors / Products / Aluminum Electrolytic Capacitors; Products. Products [UPGRADE] FVF series. 2024.11.12. Higher rated ripple current 25V, 35V (11 models) Products [UPGRADE] FVC series. 2024.05.17. New voltage 6.3V, 10V (17 models) Products Aluminum Electrolytic Capacitors catalog updated. 2024.04.23. New Catalog. For ...

En el mundo de la electr#243;nica, los capacitores (o condensadores) son componentes fundamentales que desempe#241;an un papel crucial en una amplia variedad de circuitos el#233;ctricos. En este art#237;culo, exploraremos en detalle qu#233; es un capacitor el#233;ctrico, c#243;mo funciona, sus diferentes tipos, y otros aspectos clave que te ayudar#225;n a comprender su importancia en ...

2024.04.23 Products Aluminum Electrolytic Capacitors catalog updated. "A partner of the electronics industry that creates futures"; The Web site of the SUN Electronic Industries Corporation. About company profile or product.
