Let"s say you bought the same system as above and received the same tax credit for \$15,000. However, in this scenario you only have \$8,000 tax liability. You can use your Residential Clean Energy Credit to bring down the \$8,000 tax liability, and then you can carry over the remaining \$7,000 to the next tax year. The IRS currently states that the Residential Clean ...

Reducing the use of scarce metals -- and recycling them -- will be key to the world"s transition to electric vehicles.

NPR listeners wrote to ask whether the environmental harm from building EVs "cancels out" the cars" climate benefits. Experts say the answer is clear.

Check your power settings to ensure they are optimized for battery life. You can do this by going to "Settings" > "System" > "Power & sleep." Adjust the settings to ...
