

The battery inspection module lights up yellow

What does 'inspect battery' mean on a generator?

The Inspect Battery alert is a maintenance reminder, not a shut-down alarm. It is a reminder to inspect the battery of the unit. This message may occur in Generac air-cooled home standby generators with controller displays. The battery is listed as an item on a generator's maintenance schedule.

What does a battery check message mean on a generator?

It is a reminder to inspect the battery of the unit. This message may occur in Generac air-cooled home standby generators with controller displays. The battery is listed as an item on a generator's maintenance schedule. This message will appear after a preconfigured time period.

Do I need an alarm if my car has a yellow light?

Welcome to the forum, no need for alarm. The yellow light will show on a yearly basis for battery, air filter, spark plugs and maybe oil. It will NOT keep the unit from performing - it is a maintenance reminder. Push the OFF button and then ENTER for each description that shows up, in one year it will come up again.

How do you know if a car battery is bad?

Green or off - means the battery is getting a good charge. Yellow - indicates the battery's charging is getting low. This is usually not a big deal and can even show up after a short drive. Red - implies that the battery is no longer charging because of an issue and needs quick care.

Why does my alarm keep going on a 24-hour charge cycle?

The battery needs to go on a 24-hour charge cycle. If the alarm persists after a 24-hour charge cycle the battery may be an issue with the battery or charging circuit. This could be due to an aging battery, a defective battery, or charging system issues. If the battery voltage is low enough, it can prevent the unit from starting. 1.

What do the LEDs mean on my IQ batteries?

The LEDs show you the current operational state of your IQ Batteries, and let you know if your batteries are operating normally or not. This table explains the various LED colors and states, and what each specific combination means. Some error states may require you to reach out to your system installer or maintainer for help.
