

Tunisia 12 billion aluminum battery project

How is power Tunisia funded?

The Power Tunisia Activity is funded through USAID and made possible by the generosity of the US government and the American People. The author's views expressed on this website do not necessarily reflect the views of the United States Agency for International Development or the United States Government

How many electric cars are there in Tunisia?

There are currently nearly a hundred electric cars on the road in Tunisia, the majority of which are imported by offshore companies, Hanchi pointed out. "Studies have shown that one of the challenges facing the development of electric mobility is the consumer's anxiety about the availability of recharging facilities for electric cars," he added.

What is the future of energy in Tunisia?

In Tunisia, electricity is produced almost exclusively by burning natural gas, more than half of which is imported. This dependence poses a threat to energy security and is a strain on the national budget. At the same time, energy efficiency (EnEff) and renewable energy (RE) have enormous potential in Tunisia.

What changes have been made to electric car recharging equipment in Tunisia?

Customs duties on electric car recharging equipment were cut to 10%, while value added tax was reduced to 7% from January 1 to December 31, 2023, according to Article 24 of the 2023 Finance Act, published on December 23 in the Official Gazette of the Tunisian Republic (JORT).

Who commissioned a solar power station in Tunisia?

The station in question was commissioned with the support of battery manufacturer ASSAD, car manufacturer BYD, a 100% Tunisian photovoltaic panel manufacturer, Alphanis, and solar panel installer SUN SOLUTION.

Is Tunisia launching a photovoltaic charging station for electric cars?

Tunisia: First Photovoltaic Charging Station for Electric Cars Inaugurated in Anme | Africa Energy Portal
Sorry, you need to enable JavaScript to visit this website. Skip to main content Trending Now EU pumps another EUR82m into African renewables Chad: Merl Solar to supply 100 MWp from two solar power plants in Gaoui

Oslo, 5 August 2024: Scatec ASA, a leading renewable energy provider, and Aeolus SAS, part of the Japanese conglomerate Toyota Tsusho Group, have signed a partnership agreement to jointly develop and own renewable energy projects in Tunisia. In parallel, financial close has been achieved for the 120 MW Sidi Bouzid and Tozeur solar projects ...
