

Aeolus remains committed to contributing to the development of Tunisia and other African countries through renewable energy projects," says Aeolus CEO Hideharu Toba. "We are proud to partner with Scatec and Aeolus - Toyota Tsusho Group on their first utility-scale solar projects in Tunisia.

Purpose The life cycle assessment of silicon wafer processing for microelectronic chips and solar cells aims to provide current and comprehensive data. In view of the very fast market developments, for solar cell fabrication the influence of technology and capacity variations on the overall environmental impact was also investigated and the data ...

Renewable power plants operator Voltalia SA has been awarded a project to build a 130-MW solar park in Tunisia and run it under a contract with the country's power grid operator.

Canadian Solar's new project would produce 200,000MT of high-purity polysilicon, 10GW of both cells and modules and multi-GW productions of raw and auxiliary materials.

Tunisia signs two agreements with foreign companies for the construction of solar power plants in Sidi Bouzid and Tozeur. These projects are part of the country's energy strategy to increase the share of renewable energies.

Explore Tunisia solar panel manufacturing landscape through detailed market analysis, production statistics, and industry insights. Comprehensive data on capacity, costs, and growth.

NR-Sol is gearing up to open Tunisia's first photovoltaic module factory on December 15. Initial production capacity will be 25 megawatts (MW), but there are already ...

Aeolus remains committed to contributing to the development of Tunisia and other African countries through renewable energy projects," says Aeolus CEO Hideharu Toba. "We are proud to partner with Scatec and Aeolus ...

In 2019, Scatec was awarded 20-year PPAs, with options for 10-year extension, with the Tunisian state utility STEG for the two solar projects totalling 120 MW. In August 2024, Scatec signed a partnership agreement with Aeolus SAS, part of the Japanese conglomerate Toyota Tsusho Group, to jointly develop and own the projects.

Yingli said the output of its new facility will be worth nearly US\$1 billion. Image: Yingli. Solar Module Super League member Yingli Solar has started construction on a new 5GW N-Type TOPCon cell ...

La caméra Cell PT 4G configurée avec le réseau 4G LTE est une caméra rechargeable 100 % sans fil qui offre une protection complète de la maison jusqu'à près de 365 jours sur une seule charge. Avec 2K et IP66 résistant aux intempéries, la caméra extérieure Cell PT offre un champ de vision étendu pour que vous puissiez voir tous les recoins de votre maison. Équipée d'un ...

Tunisian solar module manufacturer, Ifri-Sol has commissioned its second manufacturing facility, in Kairouan, in northern Tunisia's inland desert.

Voltalia's triumph in securing the 130-megawatt solar project underscores the company's commitment to advancing renewable energy solutions in Tunisia. With construction ...

NR-Sol is gearing up to open Tunisia's first photovoltaic module factory on December 15. Initial production capacity will be 25 megawatts (MW), but there are already plans in the pipeline to...

From pv magazine France Ifrisol, a Tunisian solar module manufacturer, plans to commence sales in the United States by the end of 2024.. Laura Ramoul, Ifrisol's marketing manager, told pv magazine France that the company has secured UL certification from Underwriters Laboratories for its products in the US and Canadian markets, ensuring they ...

Voltalia's triumph in securing the 130-megawatt solar project underscores the company's commitment to advancing renewable energy solutions in Tunisia. With construction set to commence in 2025 and commissioning expected by 2026, the project represents a significant step towards achieving Tunisia's renewable energy goals and ...
