

The MSK-TE903 Dual Explosion-Proof Steel Box provides a safe enclosure for over-charging & forced discharging of all kinds of battery cell testings based on the UN38.3 standard (38.3.4.7 & 38.3.4.8). The two separate compartments with a total of 4 feedthrough ports allow for the testing of multiple batteries at the same time.

The MSK-BS058 Explosion-Proof Steel Box provides a safe enclosure chamber for over-charging and forced-discharging of all kinds of battery cells required by the UN38.3 standard (38.3.4.7 & 38.3.4.8), as well as for MTI high-pressure vessel.

As 19 years manufacturer of explosion proof battery, Large Power provide Exib & Exd explosion proof Lithium ion Battery for mine, oil well, petrochemical and other explosion-proof places.

The LithiumSafe(TM) Battery Box is designed for safely storing, charging and transporting lithium ...

While a standard junction box cannot safeguard against these risks, an explosion-proof junction box will. By isolating specific circuits and preventing wires from coming into contact with combustible elements, the equipment helps prevent the propagation of flames or sparks in an explosive environment, thus safeguarding users operating in hazardous areas. Safer-Ex ...

Find the Tunisian industrial leader in the manufacture of industrial batteries and the commercialization of lead-acid electric batteries.

Our range of Ex Battery Systems include: Battery Enclosures, Isolators, Battery Chargers and Monitoring Systems.

BS-099 Dual Explosion-Proof Steel Box provides a safe enclosure for over-charging & forced discharging of all kinds of battery cell testings based on the UN38.3 standard (38.3.4.7 & 38.3.4.8). The two separate compartments with a total of 4 feedthrough ports allow for testings of multiple batteries at the same time. Specification:

Our ATEX compliant battery systems range from 4.5Ah up to 5000Ah and are intended for use in areas made potentially hazardous by the presence of flammable liquids, gases or vapours, including Hydrogen (H₂ certified) (Zone 1, Zone 2, Zone 21 or Zone 22).

Depuis plus de 70 ans, le groupe ASSAD s'impose comme le leader incontesté dans le domaine des batteries en Tunisie et demeure une référence majeure sur le continent africain. Notre expertise

dans la fabrication et la commercialisation des accumulateurs électriques au plomb et des batteries industrielles est reconnue l'activité mondiale.

Extensive Product Range: partner with our reputed explosion-proof equipment manufacturers, Prolux International, represents an extensive range of explosion-proof junction boxes sourcing globally from various parts of the world. This provides us not only with the liberty of extensive range of products but also offering client the best cost-effective solutions in explosion-proof ...

The MSK-BS058 Explosion-Proof Steel Box provides a safe enclosure chamber for over ...

Depuis plus de 70 ans, le groupe ASSAD s'impose comme le leader ...

The LithiumSafe(TM) Battery Box is designed for safely storing, charging and transporting lithium ion batteries. The most intensively tested battery fire containment solution on the market, engineered to fight all thermal runaway problems: Containment of fire and explosion; Thermally insulating extremely high temperatures; Filtration of toxic fumes

RETRON offers several fireproof boxes for lithium-ion batteries in different sizes, up to large containers for commercial users. The small RETRON BOX can be used for fireproof storage of all common household accumulators and batteries up to e-bike batteries.

Shenhai Explosion-proof Technology Co., Ltd. is a national high-tech enterprise founded in 2001, which is located in Yueqing, Zhejiang, the production base of explosion-proof electric appliances in China. It covers an area of 26000 square meters. We have been authorized by ISO9001, ISO14001 and ISO45001 certificates. We are a trusted supplier for Sinopec, CNPC, CNOOC, ...
