What are the different types of outdoor solar lights?

Based on their light output, outdoor solar lights fall into three general types: motion-activated, dusk-to-dawn, and timer-controlled. Because of solar cell size and battery capacity, the solar energy gathered is a limited resource, so consider when you want the lights to shine and for how long.

Are outdoor solar lights right for You?

Outdoor solar lights can light up your walkway, backyard, or porch without the need to find an electrical outlet or worry about running low on battery. But finding the right solar lights for you can depend on several factors, as well as your budget.

How do outdoor solar lights work?

Outdoor solar lights contain several key components, including solar cells, rechargeable batteries, photoresistors, and lightbulbs. During the day, solar cells convert the sun's rays into electricity, which the batteries store. At night, photoresistors detect the absence of ambient light and switch on the units.

How do I choose a solar powered light?

If you're looking for solar-powered lighting to increase outdoor visibility at night or ward off unwanted intruders, look for motion-activated options, such as the BAXIA motion sensor lights. A light's brightness is measured in lumens. The higher the lumens, the brighter the light will be.
