

What insurance can I buy for rooftop solar power

Does home insurance cover rooftop solar panels?

Yes, most home insurance policies do cover rooftop solar panels. By installing solar panels you are enabling your house to produce its own electricity. These rooftop solar panels are usually considered a permanent attachment to your property, similar to a patio or a security system and can, therefore, be considered a form of home improvement.

Do I need insurance for a solar panel system?

In most cases, there is no need to get additional insurance to cover your solar panel system. However, since solar is worth thousands or even tens of thousands of dollars and can add around \$10,000 to \$30,000 of value to your home, we might recommend raising your coverage limit to cover the cost of your home with the solar panel system.

Will solar panels increase my home insurance?

Adding solar panels to power your home definitely fits the bill. The only way to know if the price of your homeowner's insurance will increase due to the solar panels is to speak with your insurance agent. Discuss your plans with your insurance company before you schedule a consultation for installation.

Do solar panels need earthquake insurance?

Solar panels are highly resistant to earthquakes, but if you live near a fault line in California then additional earthquake insurance may be necessary to protect your home solar panel system. The best way to determine if your solar is protected against any form of natural disaster is to talk to your insurance company about your specific plan.

How much does solar panel insurance cost?

On average, solar panel insurance can cost between \$100 and \$1,000 per year, depending on the insurer and the coverage options selected. Factors like location of your property, size of solar panel system, and coverage limits can vary this. Some insurers may offer discounts to homeowners who have installed solar panels on their property.

What does a solar installer warranty cover?

Your installer warranty will cover any damage that occurs to your home or solar panels during the installation process. The list of perils your insurance provider covers varies from company to company, so make sure to check what is covered under your specific plan.
