StorEn Technologies is a manufacturer of vanadium home batteries. Learn about our unique technology for residential battery backup solutions.

Researchers have developed a new kind of battery, made from inexpensive, abundant materials, that could fill that gap. It uses aluminium, sulphur and rock salt crystals and could power a single home or small business.

Residential vanadium flow batteries can also be used to collect energy from a traditional electrical grid. This allows homeowners to have access to back-up power during outages due to extreme weather and helps control utility costs by collecting power from the electrical grid when rates are lower and storing it for later use during peak consumption times when rates are higher. THE ...
