

# Where to buy good capacitors in Transnistria

I'm trying to make my first PCB but I'm having trouble finding parts like resistors, capacitors, etc from local stores. Call me old fashioned but I'm not a huge fan of ordering online because I like to just go out and just get the parts instead of ...

Electrolytic capacitor 0.1uf 50v, large ripple current, low ESR, bypass capacitor: used to filter out some noise interference in the circuit. These noises tend to be high frequency. We design the capacitor operating frequency to 100KHZ, which can filter the noise of almost all ...

Understanding Air Conditioner Capacitors. Air conditioner capacitors are essential components that store and release electrical energy to start and run the motor. Their reliability and proper specifications are crucial for the system's performance. Types of Capacitors. Start Capacitors: Provide a large voltage boost to initiate the motor.

A capacitor (also known as a condensator) is a component in electronic circuits, that stores and releases electrical energy. It is made of conductive plates separated by an insulating material called the dielectric. When a voltage is applied across the plates, an electric field forms, causing positive charge to accumulate on one plate and ...

Available at discount prices, our inventory of electrolytic capacitors includes a range of brands and capacitance. Shop now for affordable, reliable parts!

Where is Transnistria? Tiraspol, Transnistria. Transnistria is an unrecognized country officially the Pridnestrovian Moldavian Republic (PMR) that separated from Moldova after the fall of the Soviet Union in 1990-1991 when an independent government was established with Tiraspol as its capital. The capital city of Tiraspol is located near ...

We specialize in capacitors for power electronics and heavy current electrics. We always manufacture our capacitors with metallized film and dry dielectric. Depending on the application and operating conditions, we can cover operating voltages of up to 50kV DC and 25kV AC and rated currents of up to 1200 A (Irms) and 1400kA (Is). But what a ...

Through continuous extension and improvement of the range, Electronicon has become one of the leading capacitor manufacturers in Europe. Qualified employees and extensive investments in modern and environmentally friendly technologies guarantee maximum standards in the development and production of high-quality alternating and direct voltage ...

Short story: Transnistrians are pro-Russian people who didn't want to be part of Moldova (culturally Romanian) after the dissolution of the USSR. Longer story: However, I'd like to add a few points because the story is obviously more complicated than that. The fact is that Transnistria is an artificial, fake territory taken from Western Ukraine in an attempt by the ...
