

## Which integrated cabinet small solar energy company has the lowest price

What was the lowest solar price ever paid?

Bloomberg New Energy Finance's Jenny Chase suggests that the true lowest record price was the Portugal project: IMO the record low bid in a solar auction for price to be paid is still in Portugal, with a project at 14.76 euros per MWh for 15 years. This secures the valuable grid connection, and the developer hopes to hit paydirt in years 16-??

Where is the cheapest place to build solar power?

The projects in Brazil and Portugal only sell some of their electricity into the power purchase agreement, while the rest is being sold into the open market. All of these price are remarkable, but India is still the cheapest place to build solar power. India offers no incentives, no green credit, and no special relationships, just pure price.

Is India the cheapest place to build solar power?

All of these price are remarkable, but India is still the cheapest place to build solar power. India offers no incentives, no green credit, and no special relationships, just pure price. The low build price would generally be assumed to lead to the cheapest pure electricity costs, but there's an obvious disconnect.
