

What happened to BayWa's solar park in Izumi?

BayWa r.e. has announced the successful sale of its 11.9 MW solar park in Izumi. The 24-hectare site in the Kyushu Kagoshima Prefecture was completed and achieved full operations in April 2020 and has now been sold to D&D Solar GK, a new venture set up between Osaka Gas and the Development Bank of Japan (DBJ).

Is D&D solar GK a good fit for Osaka Gas?

The sale of the solar farm to joint venture, D&D Solar GK is a great fit for all the partners. Part of the Daigas Group, Osaka Gas has defined renewable energy as an important energy source going forward. The company intends to develop and acquire renewable energy power sources of over 1,000 MW both domestically and globally by 2030.

Will BayWa sell its solar farm to D&D solar GK?

BayWa r.e. already has close to 100 MW of green energy in its pipeline. The sale of the solar farm to joint venture, D&D Solar GK is a great fit for all the partners. Part of the Daigas Group, Osaka Gas has defined renewable energy as an important energy source going forward.

Osaka Gas Co Ltd (TYO:9532) announced last week that it is partnering up with JA Mitsui Leasing Co Ltd to co-develop 8.5 MW of solar projects in Japan.

The Aldoga Solar Farm will deliver a flagship renewable energy project on Economic Development Queensland (EDQ) land as part of the Queensland Government's "Advancing our cities and regions strategy", which aims to renew and repurpose underutilised state land to generate jobs and drive economic growth. The substantial scale of this project will also ...

One of the first large-scale solar farms in Japan so far to be equipped with battery storage in order to meet the requirements of a local grid operator and utility, has been completed on the island of Hokkaido. Telecoms and tech company Softbank's clean energy subsidiary SB Energy and financing entity Mitsubishi UFJ announced on 1 July the commissioning of ...
